Applicant's signature: _____			Date: _____			

Additional Information

The Express Permit is limited to the following types of projects:

- Replacing windows and/or exterior doors of the same size and same location
- Adding/Removing brick
- Adding/Replacing insulation
- Repairing a roof to the extent of replacing decking boards/fascia
- Interior non-structural exploratory work for structural observation or evaluation only
- Adding/Removing siding in excess of 128 sq. ft.
- Remove/Repair drywall in excess of 128 sq. ft.
- Repairing floor decking in excess of 128 sq. ft.
- Repairing foundation in excess of 128 sq. ft. without increasing impervious cover
- Tub/Shower Conversions ****Note:** Only tub/shower/sink-surround drywall can be removed. Walls cannot be relocated or removed. Plumbing fixtures cannot be added or relocated.

The removal, repair, modification or alteration of any structural members is not allowed under the building permit resulting by an approved express permit application. This work requires the submittal of a Residential Interior Remodel Permit Application for review. If the scope of work is more than what is listed above, if it increases or decreases the square footage of a structure, the submission of a Residential New Construction and Addition Permit Application is required for review.

Submit with the [Residential Intake Request Form](#).

Express applications submitted by webform typically take **3-5 business days** to process. You may make an appointment to go over information requested in the application, but we do not process applications in person. All applications must be submitted through the webform located on the Residential Intake website.

Additional Reviews

What triggers the Historic Review and what action is required of you?

Changing the exterior of a building that is a historic landmark (H zoning), in a historic district (HD zoning), and/or in a National Register historic district requires historic review and approval *before* submitting to Residential Review. Check the property's status here, and contact the Historic Preservation Office if the property is historic: www.bit.ly/historicaustin.

What triggers the Flood Plain Review and what action is required of you?

Any work requiring a permit on property located within 100 feet of the 100-year flood plain will require additional review. If review is anticipated, include supporting information such as FEMA elevation certificate form 086-0-033 and/or topographic surveys referencing NAVD88.

To check the property for proximity to a flood plain visit www.ATXFloodPro.com or the City's [Floodplain Development Information](#) website.

Note: If the property is located within an Airport Overlay Zone, Aviation Department approval may be required.

Expired Permits

Check for expired permits: www.austintexas.gov/devreview/a_queryfolder_permits.jsp

If there are expired permits associated with this property, they must be resolved. This can be done in the following ways:

Submit an Acknowledgement of Expired Permits form with this application OR if the work qualifies for an express permit, include it in the description of work on this application.

If the Acknowledgement of Expired Permits form is used for this project, information about what will be required to resolve the expired permit(s) can be obtained during Residential Review General Information Walk-in hours.

For additional information see our website: www.austintexas.gov/department/residential-building-review
